

Simple solutions

to your complex security and compliance challenges.

SpiderLabs®

Compliance

Managed Security Services

Unified Security

We understand your business challenges.

You need to be on top of today's information security threats and compliance changes, while striving to achieve more with less.

We help you protect your websites, applications, network and data from security threats.

Challenges simplified.

 **Trustwave®**
Security begins with Trust™

The Right Solution

Trustwave offers simple solutions for complex security and compliance challenges that reduce your cost, time and management burden.

For every business challenged by increasingly complex threats, Trustwave's industry-leading security and compliance solutions and services keep it simple so you can keep growing.

We achieve this in four, complementary areas:

Trustwave SpiderLabs®

Simple is Intelligent

SpiderLabs is Trustwave's **advanced security team** focused on application security, incident response, penetration testing, physical security and security research, including anti-malware and threat intelligence.

- **Thousands of organizations depend on SpiderLabs** to detect vulnerabilities, address gaps in security and remediate issues
- SpiderLabs has performed more than **1,500 incident and forensic investigations** and more than **14,000 penetration and application security tests** in over 50 countries globally

The team's wealth of research and intelligence feeds into our portfolio — serving as the backbone of Trustwave's Unified Security solutions and Managed Security Services.

Unified Security

Simple is Unified

Unified Security enables layered security solutions to **share intelligence** and events to uncover attack patterns that single products, acting alone, miss or cannot protect against.

Powered by Trustwave's intelligent Security Incident and Event Management (SIEM) solution, Trustwave's award-winning solutions offer layered protection for:

- Web
- Applications
- Networks
- Email
- Data

Available on premise or as a managed service, Trustwave's Unified Security offering is the most optimal way to prevent and rapidly respond to attacks.

Our award-winning Unified Security solutions:

DLP, Encryption, NAC, Secure Web Gateway, SIEM, WAF and Web Filter.

Did You Know?

84% of victimized organizations were unable to detect a breach themselves

Attackers average **173.5 days** within the victim's environment before being detected

More than **90%** of all malware is delivered through the Web

Making up **89%** of data breach investigations, customer records remain a valuable target for attackers

In **62.5%** of 2011 investigations, data harvesting techniques were shown to target data "in-transit"

Trustwave 2012 Global Security Report

Managed Security Services

Simple is Focused

When you choose Trustwave MSS, we help you run your security so that you can focus on running your business.

We provide:

- A complete solution set that includes and goes beyond foundational MSS components such as firewalls, UTMs, secure email, etc.
- High value security solutions such as encryption, Web application firewall, file integrity monitoring, NAC and SIEM
- 24x7x365 coverage from the most advanced security experts in the field
- Threat intelligence from SpiderLabs

When you choose **Trustwave MSS**, you don't just get **affordable, simplified security**, you also get **better security**.

Recognized as a Leader in The Forrester Wave™: Managed Security Services, North America.

Compliance and Validation

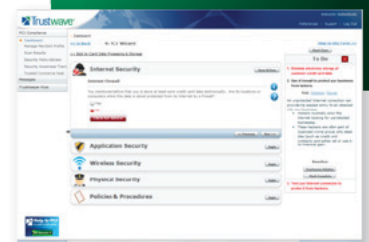

Simple is Clear

We understand that meeting compliance standards can be challenging. That's why we help you **automate** your key compliance processes, **track** and **report** your compliance measures and streamline your efforts.

Our hands-on background in security consulting, managed security and research and development along with more than one million global TrustKeeper® subscriptions, provides a strong blueprint to help address your regulatory requirements – such as PCI, HIPAA, SOX, GLBA, ISO, FISMA, NIST and others.

Whether you're a small business owner, global hospitality franchise, national healthcare provider or acquiring bank, our security solutions and services:

- Simplify compliance
- Deliver a personalized experience
- Provide trusted expertise

TrustKeeper® Merchant Portal

Simple Solutions to Your Complex Security and Compliance Challenges.

We have hundreds of thousands of happy customers — from small merchants to large Fortune 500 enterprises — who rely on Trustwave to alleviate their resource constraints, improve their security and help ensure compliance.

No matter what security challenges you're facing, our industry-leading security and compliance solutions and services keep it simple so you can keep growing.

“Enterprises can benefit from the mix of deep and operational data...[and SpiderLabs’] trusted source of intelligence.”

Wendy Nather, Research Director,
451 Research

Our Mission

For every business challenged by increasingly complex threats, Trustwave's industry-leading security and compliance services keep it simple so you can keep growing.
